## Reports Presented At Annual Town Meeting

About 35 interested ratepayers of the Town of Vulcan attended the annual meeting in the IOOF hall Monday evening to discuss the financial statement for the year 1954 and hear the reports of the chairmen of the various town committees.

Robert Munro was elected chairman of the meeting and Mrs. Edna Farr was named as secretary.

Discussion of the financial statement was led by the chairman and various items were explained by the town secretary, Mrs. Farr, and by M. R. Morrison, chairman of the finance committee.

Revenue during the year amounted to \$125,585, including a surplus from the previous year of \$2000 and a profit of \$3,375 made on the sale of Government of Canada bonds. Total expenditure during the year was \$116,521, giving a total surplus of \$9,063 on the year's operations.

The waterworks system showed a healthy profit for the year, with a surplus for the year of \$2,175 in addition to which the sum of \$3,094 had been provided out of revenue for capital expenditures. The debt payment of \$9,086 comprised of \$4,821 principal and \$4,265 interest was met according to schedule.

The tax statement showed the 1954 tax levy to be \$83,693. Collected in 1954 was \$67,553 of the current levy and \$11,716 of the prior year's arrears. Discounts allowed amounted to \$2,790. Uncollected taxes at Dec. 31, 1954, totaled \$18,239, which is considered to be a comparatively low amount.

### Committee Reports

Mayor W. D. Allan read the Municipal Inspector's report, which showed that the town books and records were kept in an excellent manner.

### Finance

Councillor M. R. Morrison, in his finance committee report, gave comparative figures for 1953 and 1954 under various headings of revenue and expenditure. The new water tower had been erected at a cost of \$44,500 and the sidewalk construction program had cost \$27,323. Total debt service at the end of 1954 was \$246,070. He gave some interesting comparative figures showing total taxes, amounts of school and hospital requisitions, revenue from sale of water, totals of unpaid taxes and total debt service of the towns of Macleod, High River, Nanton and Vulcan.

### Public Works

Councillor Max Jesse gave the report of the public works committee, which showed that 32 blocks of sidewalk had been built under the Local Improvement scheme at a cost of \$27,323 and additional sidewalk work has been done at a cost of \$7,611. Three additional acres of land had been purchased for the nuisance ground. Mr. Jesse stated that the land on which the nuisance ground is now situated was too boggy to allow ditching and burying of refuse and it was hoped to procure a side out of town where proper ditching could be done.

Hard-surfacing of the four main blocks could be done at a cost of 75c a square yard, he said, and crushed gravel for surfacing the remainder of the streets could be purchased at 40c a yard. Cost of transporting the gravel would be a big item, but it was hoped that some program of street improvement could be instituted this year.

### Fire and Police

Presented by Councillor Clifford McAskill, the fire and police report showed that hose, nozzles, a tank, ladders, steel helmets, slickers, firemen's boots and oxygen masks had been purchased to improve the fire department and the fire underwriters have now placed Vulcan in a much more favorable category in regard to fire insurance rates on dwellings. Additional fire hydrants will be installed this year. The town now has a very efficient police department.

### Cemetery and Parks

In his report, Councillor Lawrence Richardson said that in co-operation with the Lions Club tree planting and other work is now being carried out at the cemetery and a great improvement is evident. A caretaker is employed for three months every summer. 40 acres of land previously purchased for recreational purposes was sold for \$3,500 and 91 acres in a more suitable location was bought for \$100 per acre, to be developed for golf, baseball, etc.

## Legionnaires Beat Shaughnessy 6-3

Backed by the steady goal-keeping of Neil Garvin and a two-goal defenceman Bud Powell, the Vulcan Legionnaires skated to a 6-3 victory over the Shaughnessy Cadillacs on Sunday at the local arena.

In a well-played game, the Legionnaires took command throughout as the Shaughnessy team had trouble becoming accustomed to the natural ice after playing on artificial ice all season. The Legionnaires led 1-0 at the end of the first period, 4-2 at the end of the second, and outscored the visitors 2-1 in the third. Other Vulcan scorers were Gorbous with two and Pat Walker and H. Boutland with one each.

Vulcan line-up: Garvin; Goings, Jesse; Gorbous, Walker, Boutland; Kehr, H. Buehler; Passoli, Yeomans, LaRoche, Gatenby, Mensinger, Powell, Larkins.

## Missionary Will Be Guest Speaker

Miss Flora Dixon of the Sudan Interior Mission (International) will be the guest speaker at the regular meeting of the W.M.S. on Thursday, Feb. 24 at 3 p.m. in the United Church. Films and curios will be displayed.

Miss Dixon will also take part in the Women's World Day of Prayer on Friday, Feb. 25, at 3 p.m. in the Church of Christ. All women are welcome at both services.

Councillor Montie Findlay showed that revenue from the skating rink was small in relation to the cost of upkeep, but this was considered to be a necessary recreational service. Revenue in 1954 was \$323 and expenditure \$2,258.

### Waterworks

Presented by Councillor M. R. Morrison in the unavoidable absence of Councillor J. M. Jamison, the waterworks report showed that 100 meters were purchased and installed in 1954, that the water tower had been built at a cost of \$3,345 less than the anticipated \$47,800 and that a chlorinator and tester has been purchased for the waterworks system.

An additional 10 acres had been purchased for a disposal area and \$2,800 paid to the County for the construction of a second dam at the disposal area.

### Mayor's Report

In his annual report to the ratepayers, Mayor Allan said that a new business assessment is being made this month for taxation purposes in 1955.

Only three parcels of land, all residential, have tax caveats registered against them and tax arrears are quite low.

The value of 1954 building permits was \$65,550.

Town bylaws are being more rigidly enforced and fines collected for infractions of town bylaws amounted to \$337.

Nomination day will be held Monday, Feb. 21, when nominations will be received for Mayor, two councillors, school representative and hospital board member.

A hearty vote of thanks was extended the mayor and councillors for their efforts during the past year.

## Keystone Class

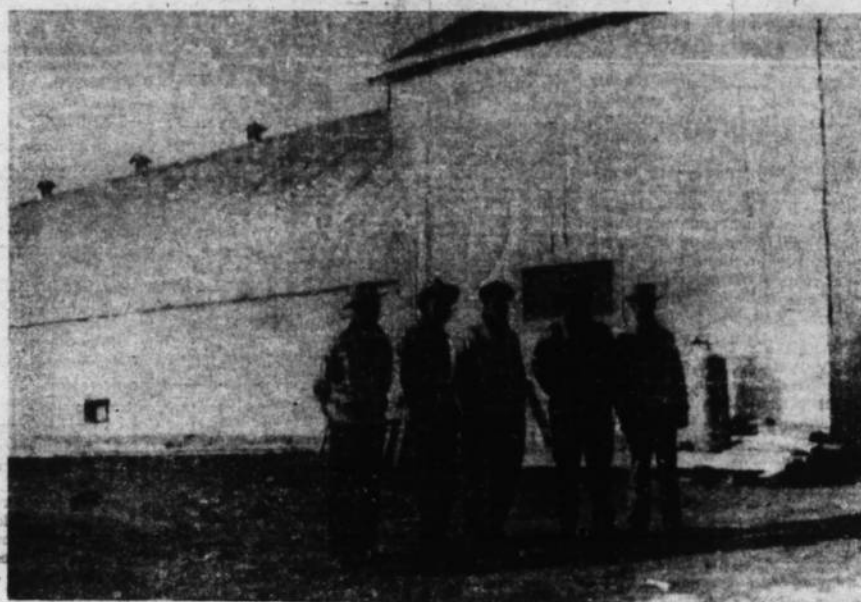

The Keystone Missionary Class of the Church of Christ met at the home of Mrs. M. Boose last week. Thirteen members and one visitor attended same.

Hymns were sung and some of the numbers led in prayer.

The devotional was taken by Mrs. Donald Smith.

Roll Call was responded to by the ladies giving a verse of scripture on "Love."

## New Curling Rink At Brant

Shown above is a view of the new curling rink at Brant, officially opened this month, with officers and members of the building committee in the foreground.

The two-sheet rink is built in a quonset style, with a two-storey structure at one end housing a coffee bar and waiting room on the first floor and a lounge on the second floor. The rink is 176 feet long and 34 feet wide, covered with sheet aluminum.

Glass partitions in both lower and upper rooms allow spectators to watch games in progress. This part of the building is lined throughout with plywood and is very comfortable and well-planned.

Only one paid carpenter was employed in the building of the rink, most of the work being done on a voluntary basis by the residents of the community. It took 12 weeks of steady labor to complete the construction, but the Brant community now has a curling rink of which it can be very proud and which is valued at \$13,000.

**Alberta's****Department of Agriculture**

Alberta's Department of Agriculture was organized when the Province was created in 1905. Its objective is the constant improvement of farming practice, so that the farmer may receive the greatest return for his efforts without impairing the soil's fertility.

The work of the department is carried on under a number of branches, each staffed with men and women having special training and experience.

The Field Crops Branch has four divisions, all concerned with better crops and the improvement of cropping methods. These are:

1. Crop Improvement: This division assembles and distributes information about crops and varieties of seed. Special emphasis is placed on forage crops. The use of better seed is encouraged and contributions are made toward the cost of municipal seed-cleaning plants.

2. Weed Control and Soil Conservation: Working closely with the Agricultural Service Boards, this division strives for increased returns to the farmer through better land use.

3. Horticulture: This division includes the provincial horticultural station at Brooks and a forest nursery station at Oliver. Information on trees, fruits, flowers, lawns and vegetables is provided, and improvement of home grounds encouraged. A tree planting program with an objective of 100,000,000 trees is well underway.

4. Crop Protection: This division seeks to control pests and diseases. Information is distributed, and active campaigns for the control of field crop insects, rat migration and livestock predators waged.

The Agricultural Extension Service Branch, through the preparation and distribution of useful information, helps farmers to improve the effectiveness of their operations. To this end the branch employs 47 district agriculturalists, 15 district home economists, a staff of supervisors as well as specialists in agricultural engineering, nutrition and home design. Many thousands of public meetings, home visits and office interviews are held each year. Agricultural statistics are compiled for general use, and Alberta's Master Farm Family program honoring outstanding families in five sections of the province is conducted by the branch.

The Radio and Information Branch is responsible for the radio program "Call of the Land." Information of agricultural interest is broadcast Monday through Friday from six Alberta radio stations, and printed releases are prepared and distributed weekly to the farm press and others.

The Poultry Branch assists farmers with their poultry enterprises. Flocks supplying eggs to hatcheries are tested and an experimental breeder farm is operated at Oliver.

The Apiculture Branch is concerned with the promotion and efficiency of bee-keeping. Schools of Agriculture and Home Economics are operated by the department at Olds, Vermilion and Fairview. Practical two-year courses in agriculture are offered to boys, and in home economics to girls. Courses start in October and continue until early April.

The Veterinary Services Branch seeks to reduce disease losses to the livestock and poultry industries, to this end maintaining a modern laboratory for diagnostic services.

The Livestock Branch promotes better breeding in cattle, sheep and swine through the greater use of purebred sires and encourages improvement generally through recommended feeding and management practices.

The Dairy Branch is concerned with improvement of the dairy industry from the raw to the finished product. As well as directing attention to production on the farm, this branch is responsible for dairy factory and frozen food locker plant inspections.

The Fur Farm Branch provides Alberta's 900 fur farmers with information and assistance designed to improve quality, reduce diseases and generally to increase efficiency in the production of ranch furs.

Dear Boss Lady..

Let's look at my TIME CLOCK

My "TIME CLOCK" is your electric meter, Boss Lady. It's as accurate as a jeweled watch. In fact, its bearings are tiny jewels. My company spends thousands of dollars for these jewels just to make sure you don't have to pay one cent more than I earn.

Yes sir, my time clock registers every second I work, and it stops the very second you turn off the switch.

There's no loafing in my book. You KNOW my wages are for services DELIVERED.

So the next time you look over my time card (the electric service bill) think of all the appliances you've given me to operate and look at all the hours I worked doing it—and best of all, there's no guesswork — you know it's a bill for VALUE RECEIVED!

### SONG WRITERS' COMPETITION and PLAY WRITING COMPETITION

The Golden Jubilee Committee announces the establishment of a Song Writing Competition and a Play Writing Competition as part of the Alberta Jubilee activities. The purpose of the competitions is to stimulate interest in song writing and in the writing of regional drama and the production of plays written by Albertans.

#### Rules for Song Writers' Competition

1. Entries will be received up to April 15th, 1955. All entries must be sent to the Golden Jubilee Committee, Edmonton, in an envelope plainly marked "SONG WRITERS' COMPETITION."
2. Compositions previously published will not be eligible.
3. Open to amateur and professional song writers of Alberta. Entrants must have been residents in Alberta since October 1st, 1954, or, if not resident at the present time, must previously have been resident in Alberta for a period of five years or more.
4. Songs may be for solo voice or unison singing as well as part-songs for two, three or four voices. If the compositions are designed to have a full accompaniment, this must be provided. (N.B. Failure to provide full accompaniment to songs requiring it will render the contestant liable to disqualification).
5. \$750 in prizes will be awarded to the compositions considered by the judges to be the best submitted. A substantial sum of money will be awarded to the most outstanding entry. If in the opinion of the judges, no submissions meet the required standards no prizes will be awarded.
6. Copyright arrangements in respect of the lyrics must be made by the composer. Arrangements for permission to use the poems in the Alberta Jubilee Anthology should be made with the Publishers.
7. The manuscripts of the songs submitted must be in duplicate, must not contain any identification marks but should be accompanied by a sealed envelope containing the name and address of the composer and attached to the manuscript.
8. The right is reserved by the Jubilee Committee to edit any composition.
9. Authors desiring the return of unacceptable manuscripts please enclose a self-addressed envelope to facilitate their return.
10. The submission of any manuscript signifies an acceptance of all the rules, regulations, and conditions as above stated.
11. Members of the Committee, Judges of the competition and their families are not eligible.

#### Rules for Play Writing Competition

1. Entries will be received up to June 30, 1955. Three plays will be bought at a price of \$250.00 per play and these plays will be made available to groups wishing to use them as part of the Jubilee activities free of royalty during the remainder of 1955. Inasmuch as it is desirable that plays see production during the writing, the Jubilee office will arrange that producing groups be put in touch with play writers intending to offer plays for purchase. Playwrights planning to offer a play are asked to signify their intention by writing to the Jubilee Committee so that groups may be informed of plays in preparation. This is not, however, a condition of entry.
2. All entries must be sent to the Golden Jubilee Committee, Edmonton, in an envelope plainly marked, "The Golden Jubilee Play Purchase."
3. Plays must have a playing time of not less than one hour and three-quarters but no restrictions are made as to the division of play material into acts.
4. There is no restriction as to subject matter.
5. Entrants, if not resident at the present time, must have been resident in Alberta since October 1, 1954, or previously have been resident in Alberta for a period of five years or more.
6. Plays must be unmarked and enclosed in a plain unmarked envelope. The name and address of the author should be clipped to the envelope.
7. Plays having been previously published are not eligible.
8. Plays should be typewritten, double spaced, and typed on one side of the paper only.
9. The right is reserved by the Jubilee Committee to edit any play so purchased.

## This is THE MARK OF A NEW AGE!

That big, bold Sweep-Sight Windshield—curving back to vertical corner posts—is easy-to-see evidence that Chevrolet has cast aside the tradition of the past to start a whole new age of low-cost motoring. It's smarter to look at—safer to look out of—and it's only part of Chevrolet's new outlook for '55!

Yes, Chevrolet brings you a whole new outlook in low-cost motoring for 1955! It's best symbolized, we think, by the sweeping expanse of windshield that widens your view of the road and lets you "see through" the corners for greater safety.

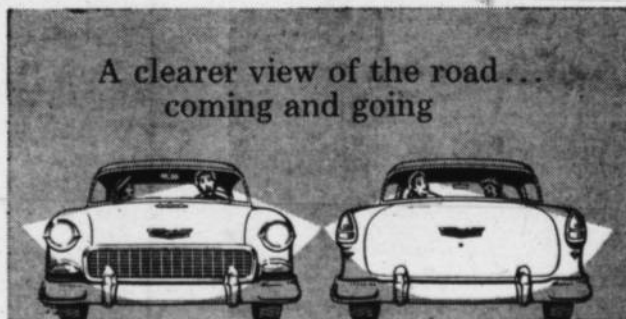

The car with the new idea! Besides widening your view of the road, the Motoramic Chevrolet broadens the whole horizon of the low-priced car. It was built around the idea that a car doesn't have to be high-priced to look, ride and

perform like it. A lot of time and sweat went into the building. A lot of old traditions went out the window because they didn't measure up to this daring new concept. Trust Chevrolet to have the resources and the skill—yes, and the courage—to break so completely with the past.

Everything's new in Chevrolet! Everything—from its tubeless tires to its lower top. There's new beauty with that long, low "let's go" look! New fun underfoot with the new "Turbo-Fire" V8 and the new "Blue-Flame" six! A new

choice of drives—new Overdrive, Super-Smooth Powerglide (extra-cost options), and new standard transmission! A wonderful new ride! New High-Level ventilation! But we can't even begin to give you the whole story here.

Look who's stealing whose thunder! Chevrolet's stealing the thunder from the high-priced cars in more ways than one! Come in, drive it, and you'll see why the Motoramic Chevrolet starts a new and exciting age of low-cost motoring. This you're going to love!

A clearer view of the road...  
coming and going

MORE THAN A NEW CAR...  
A WHOLE NEW CONCEPT OF
